<sup>2</sup> Students should check with the institution to which they are transferring in order to determine the most appropriate history course(s) to take at LFCC. For students intending to take more than one history course, a sequence beginning by taking HIS 101, 111, or 121 is preferred prior to 102, 112, or 122.

<sup>3</sup> Students should check with the institution to which they are transferring in order to determine the most appropriate math courses to take at LFCC.

<sup>4</sup> A one-year sequence of biology, chemistry, geology, or physics is recommended. However, depending on the requirements of four-year institutions, two one-semester courses in different sciences may be substituted with advisor approval.

The College reserves the right to make changes to any provision or requirement within these sources, as well as changes to any curriculum or program, whether during a student's enrollment or otherwise.
