

Call for Student Proposals

New to 3CS 2017, National Harbor, Maryland, is a Pre-Summit Job Fair and a Student Track on Wednesday, June 28th. Students are encouraged to submit proposals to share their knowledge on student competitions, student associations, developing cyber competition teams, summer camps, outreach and more. **Proposal Submission**

Support the Future of Cybersecurity

The National Cybersecurity Student Association just launched a Go Fund Me campaign and is seeking support. Donations will help cybersecurity students across the nation attend conferences, trainings, competitions, and the like, in order to further their knowledge and skills. Any donation big or small will make a difference.

Cybersecurity Career Success

The talent shortage and wealth of daily openings in cybersecurity careers is well documented. However, these career paths are still varied and largely undefined. Watch Drew Fearson, chief operating officer at NinjaJobs, as he discusses careers in cybersecurity and what it takes to be successful in this field.

Build Your Brand

Interested in jobs finding you? Developing your digital brand while in college is important! Even with a zero unemployment rate, finding the right cybersecurity job can be a challenge. Watch Jessa Gramenz as she discusses the tools to help you navigate and automate the process of individual brand development.

Building A Cybersecurity Workforce

Author: Gustavo Hinojosa

With a ceaseless shortage in qualified information security employees worldwide, Gustavo Hinojosa, a student, highlights the efforts and steps the government and various organizations are taking to further educate students. His blog emphasizes a few issues where they can build a stronger knowledge base to get ahead.

Chapter Development

Why should you strengthen in numbers and start a student chapter?
